Americans with Disabilities Act
- Obese patients covered by EMTALA, ADA, MAY:52

Charitable hospital lawsuits
- Look closely at EMTALA in light of Scruggs suits, JAN:4
- System settles charity suit, JAN:4

Corporate practice of medicine
- Avoid corporate practice of medicine, OCT:119
- New health services bring new risks to consider, OCT:117

Counterfeit medical devices
- Beware of risks from counterfeit medical devices, DEC:136

Criminal activity (Also see *Sexual misconduct)*
- Doctor's lawyer says she was hero, not murderer, SEP:100
- Ethicist sees difficult situation in Katrina charges, SEP:102
- Feds realizing risk from theft in health care, NOV:126
- ID theft in health care emerging as major risk, NOV:124
- Infant abduction yields lessons for risk managers, AUG:85
- Katrina murder allegations put spotlight on dire situations, SEP:97
- Liability risk even though infant abducted at home, AUG:88
- Policy can't cover all situations, can backfire, SEP:100
- Potential liability severe for allowing identity theft, NOV:127
- Rider can help cover costs of infant abduction, AUG:89
- Scrubs are difficult issue for newborn security, AUG:88
- 6 steps from calm to violent behavior, FEB: 23
- Steps for preventing identify theft in health care, NOV:125
- Stolen laptops and poor security can lead to ID theft, NOV:127
- Tenet distances itself from hospital, accused clinicians, SEP:101
- To manage aggressive behavior, give staff right skills, FEB:21

Discipline
- Court overturns malicious credentialing verdict, JUN *Legal Review & Commentary*:3
- Defining reckless behavior hard with just culture, JAN:3
- 'Just culture' model called better, JAN:1

Disclosure (Also see *National Practitioner Data Bank)*
- COPIC program helps patients without lawsuits, NOV:121
- Disclosure often needs more than one talk, JUL:81
- Document disclosure efforts carefully, APR:37
- Doctors more likely to tell when patient knows of error, OCT:113
- How you can encourage doctors to disclose errors, OCT:115
- Physicians still resist full disclosure of errors, OCT:112
- Policy on disclosure shows decisions on proper content, APR:40
- Sample disclosure note to put in record, APR:41

Disaster planning
- Doctor's lawyer says she was hero, not murderer, SEP:100
- Ethicist sees difficult situation in Katrina charges, SEP:102
- Evacuation plans for OR often overlooked, JUL:79
- Katrina murder allegations put spotlight on dire situations, SEP:97
- Movie helps teach OR staff how to evacuate, JUL:81
- Policy can't cover all situations, can backfire, SEP:100
- Tenet distances itself from hospital, accused clinicians, SEP:101

Disruptive behavior (Also see *Sexual misconduct)*
- 6 steps from calm to violent behavior, FEB: 23
- To manage aggressive behavior, give staff right skills, FEB:21

Documentation
- Document disclosure efforts carefully, APR:37
- Policy on disclosure shows decisions on proper content, APR:40
- Sample disclosure note to put in record, APR:41

Drug errors
- Condition H phone line provides last chance to prevent serious errors, FEB:13
- Death of young girl prompts Condition H program, FEB:17
- Doctors often ignore 'black box' warnings, JAN:11
- JCAHO issues alert on meds at hand-off, MAR:35
- Mother injured at hospital where 3 babies died, DEC:142
- Overdose of aminophylline leads to $456,000 verdict, AUG *Legal Review & Commentary*:3
- Preemie deaths prompt special heparin caution, NOV:130
- Response teams always on call for Condition H, FEB:16

Emergency department
- Action plan calls for red footies, signage, DEC:138
- Delays in testing cause woman's death, MAR *Legal Review & Commentary*:3
- ED falls not same as others, require different strategy, DEC:137
- Failure to detect soft-tissue mass obstruction, MAR *Legal Review & Commentary*:1
- Failure to provide treatment by 7 doctors and 1 hospital leads to death and $1.35 million settlement, DEC *Legal Review & Commentary*:1
- Ineffective treatment of sepsis, MAY *Legal Review & Commentary*:1
- Study revealed unique aspects of ED falls, DEC:137

Employee health
Experts debate pros, cons of requiring flu vaccination, JAN:10
Mandatory flu shots create dilemma for risk managers, JAN:8

EMTALA
Document diligently, send homeless patients with needed items, JUN:63
Look closely at EMTALA in light of Scruggs suits, JAN:5
Obese patients covered by EMTALA, ADA, MAY:52
'Patient dumping' charges in Los Angeles draw attention, JUN:61
Plaintiffs may push cases alleging EMTALA violations, JUN:65
System settles charity suit, JAN:4

Facility design
Data help show fall risk with design, AUG:91
Design becoming new focus for patient safety, JUL:76
Engineers study design, hospital cuts falls by 50%, AUG:90
More hospitals including patient safety in design, JUL:78
Rooms designed to reduce falls, standardize all gear, JUL:77

Falls
Action plan calls for red footies, signage, DEC:138
Data help show fall risk with design, AUG:91
ED falls not same as others, require different strategy, DEC:137
Engineers study design, hospital cuts falls by 50%, AUG:90
Study revealed unique aspects of ED falls, DEC:137

Fire safety
Evacuation plans for OR often overlooked, JUL:79
Movie helps teach OR staff how to evacuate, JUL:81

Flu season and vaccination
JCAHO releases new goals, requires flu vaccine, AUG:95
Mandatory flu shots create dilemma for risk managers, JAN:8

Gainsharing agreements
Follow guidelines closely to avoid gainsharing trouble, MAY:53
Gainsharing agreements can pose risks, APR:45
Guidelines from OIG help keep gainsharing safe, MAY:55

HIPAA
Administrative simplification enforcement rule in effect, MAY HIPAA *Regulatory Alert*:1
AHA wants contingency period for attachment rule, FEB *HIPAA Regulatory Alert*:2
CMS: PHI can be disclosed for payment purposes, FEB HIPAA Regulatory Alert:4
CORE rules will build on HIPAA, NOV *HIPAA Regulatory Alert*:1
Court rejects privacy suit related to HIPAA, FEB *HIPAA Regulatory Alert*:3
EPIC warns about DTC marketing databases, FEB *HIPAA Regulatory Alert*:4
Former Cleveland Clinic worker charged with fraud, NOV *HIPAA Regulatory Alert*:2
Groups suggest basic principles for PHI privacy, NOV *HIPAA Regulatory Alert*:3
HHS issues Privacy Rule decision tool, NOV *HIPAA Regulatory Alert*:4
Improper transfer of heart attack victim, SEP *Legal Review & Commentary*:1
Info-Tech Research Group calls HIPAA ineffective, MAY *HIPAA Regulatory Alert*:3
MGMA concerned about e-claims standards, MAY *HIPAA Regulatory Alert*:4
Ohio court puts state open records law over HIPAA, MAY *HIPAA Regulatory Alert*:4
Records release yields $26,000 settlement, APR *Legal Review & Commentary*:3
Survey: Americans worried about health info privacy, FEB *HIPAA Regulatory Alert*:1
Survey suggests shift toward long-term benefit, MAY HIPAA *Regulatory Alert*:2

Homeless patients
Document diligently, send patients with needed items, JUN:63
'Patient dumping' charges in Los Angeles draw attention, JUN:61
Plaintiffs may push cases alleging EMTALA violations, JUN:65

Identity theft
Feds realizing risk from theft in health care, NOV:126
ID theft in health care emerging as major risk, NOV:124
Potential liability sever for allowing identity theft, NOV:127
Steps for preventing identify theft in health care, NOV:127
Stolen laptops and poor security can lead to ID theft, NOV:127

Infant abduction
Infant abduction yields lessons for risk managers, AUG:85
Liability risk even though infant abducted at home, AUG:88
Rider can help cover costs of infant abduction, AUG:89
Scrubs are difficult issue for newborn security, AUG:88

Infection control
Program reduces central line infections by 50%, APR:46

Insurance
E&O, D&O liability insurance can be good option, NOV:128
E&O, D&O must be renewed, updated often, NOV:129
Insurer drops rates after Texas adopts tort reform, MAY:59
Rider can help cover costs of infant abduction, AUG:89

Joint Commission (Also see *Sentinel Events*)
Checklist helps Baylor staff ready for surprise surveys, JUN:69
Fake JCAHO surveyors still trying to access hospitals, JUN:70
Fun and games help staff prepare for JCAHO, JUN:69
JCAHO releases new goals, requires flu vaccine, AUG:95
JCAHO warns about problems with some tubing, JUN:70
On-site surveys offer lessons to others, JUN:68

'Just culture' model
Defining reckless behavior hard with just culture, JAN:3
Hospital shows just culture can work, MAR:33
'Just culture' model called better, JAN:1
Level of harm not factor when deciding to punish, FEB: 17
3 types of misbehavior determine when to punish, FEB:18

Lawsuits
Claims stabilizing for first time in years, DEC:142
Court overturns malicious credentialing verdict, JUN *Legal Review & Commentary*:3
Delays in testing cause woman's death, MAR *Legal Review & Commentary*:3
Development of decubitus ulcers leads to death, $250,000 verdict, JAN *Legal Review & Commentary*:1
$826,000 verdict after tuberculosis remains undiagnosed, AUG *Legal Review & Commentary*:1
Failure to detect soft-tissue mass obstruction, MAR *Legal Review & Commentary*:1
Failure to monitor diabetic's blood sugar, APR *Legal Review & Commentary*:1
Failure to report abuse leads to settlement, OCT *Legal Review & Commentary*:3
5-year delay in notifying patients of dental implants, JUN *Legal Review & Commentary*:1

Hospital settles and physician found liable, OCT *Legal Review & Commentary*:1
Improper transfer of heart attack victim, SEP *Legal Review & Commentary*:1
Improper transfer to nursing home results in death, JAN *Legal Review & Commentary*: 3
Ineffective treatment of sepsis, MAY *Legal Review & Commentary*:1
Jury awards $19.5 million against nursing home, JUL *Legal Review & Commentary*:1
Liability risks cut only modest number of doctors, JUL *Legal Review & Commentary*:4
Look closely at EMTALA in light of Scruggs suits, JAN:4
Overdose of aminophylline leads to $456,000 verdict, AUG *Legal Review & Commentary*:3
Records release yields $26,000 settlement, APR *Legal Review & Commentary*:3
Refusal to administer epidural anesthesia leads to $200,000 CA settlement, FEB *Legal Review & Commentary*:1
Settlement means feds looking at charge levels, SEP:106
System settles charity suit, JAN:4
Traction during birth causes partial paralysis, FEB *Legal Review & Commentary*:2

Legal counsel
Outside counsel must know what you need from them, OCT:115
Outside counsel should visit where incident occurred, OCT:116
Rapport with in-house counsel comes in handy, SEP:105

Malpractice prevention and defense (Also see *Legal counsel)*
Avoid corporate practice of medicine, OCT:119
Claims stabilizing for first time in years, DEC:142
Harvard study: Malpractice cases not usually baseless, JUL:82
New health services bring new risks to consider, OCT:117
Obese patients covered by EMTALA, ADA, MAY:52
Recruit staff from all over to keep you informed, FEB:19
Rising number of obese patients pose liability risks, MAY:49
Risk management hero awards prompt staff, FEB:20
Tips for working with large patients, MAY:52
Use variety of ways to educate staff on issues, FEB:20

Medical errors (Also see *Drug errors* and *Obstetrical claims)*
5-year delay in notifying patients of dental implants, JUN *Legal Review & Commentary*:1
$826,000 verdict after tuberculosis remains undiagnosed, AUG *Legal Review & Commentary*:1
Claims stabilizing for first time in years, DEC:142
Court overturns malicious credentialing verdict, JUN *Legal Review & Commentary*:3
Delays in testing cause woman's death, MAR *Legal Review & Commentary*:3
Development of decubitus ulcers leads to death, $250,000 verdict, JAN *Legal Review & Commentary*:1
Effort to cut errors works better than expected, AUG:94
Failure to detect soft-tissue mass obstruction, MAR *Legal Review & Commentary Suppl*:1
Failure to monitor diabetic's blood sugar, APR *Legal Review & Commentary*:1
Failure to provide treatment by 7 doctors and 1 hospital leads to death and $1.35 million settlement, DEC *Legal Review & Commentary*:1
Failure to report abuse leads to settlement, OCT *Legal Review & Commentary*:3
Hospital settles and physician found liable, OCT *Legal Review & Commentary*:1
Improper transfer of heart attack victim, SEP *Legal Review & Commentary Suppl*:1
Improper transfer to nursing home results in death, JAN: 3
Ineffective treatment of sepsis, MAY *Legal Review & Commentary*:1
Jury awards $19.5 million against nursing home, JUL *Legal Review & Commentary*:1
Liability risks cut only modest number of doctors, JUL *Legal Review & Commentary*:4
Look closely at EMTALA in light of Scruggs suits, JAN:4
Partnering with patients, family, can improve safety, JAN:7
Patient safety rounds help problem reporting, JAN:7
Pre-op safety briefings help reduce errors, MAY:55
Program reduces central line infections by 50%, APR:46
Records release yields $26,000 settlement, APR *Legal Review & Commentary*:3
Safety briefings held before any incision made, MAY:58
SBAR checklist can cut risk at patient handoff, SEP:102
SBAR checklist outlines what to say at handoff, SEP:104
Settlement means feds looking at charge levels, SEP:106
System settles charity suit, JAN:4
Wrong-site surgery rare, major injuries even more so, JUN:71

National Practitioner Data Bank
Fear of NPDB doesn't have to prevent disclosure, NOV:121
Honesty still best policy after adverse event, NOV:123

Obese patients
Avoid risk from obese with specific policies, JUN:65
Delays in testing cause woman's death, MAR *Legal Review & Commentary*:3
Guidelines call for special care with bariatrics, JUN:67
Rising number of obese patients pose liability risks, MAY:49
Obese patients covered by EMTALA, ADA, MAY:52
Tips for working with large patients, MAY:52

Obstetrics claims
Critical birth drills help prepare staff, AUG:92
Hospitals are limiting pre-term inductions, OCT:109
How to conduct critical birth drills, AUG:93
Induced delivery often for convenience, OCT:112
Injuries and claims drop sharply at HCA, MAR:28
Injury and liability risk high without induction, OCT:111
Med error injures mother at hospital where babies died, DEC:142
Nurses OK'd to begin rolling C-sections, MAR:29
Perinatal safety improved with focus on high-risk factors, MAR:25
Preemie deaths prompt special heparin caution, NOV:130
Premium credits encourage hospitals to act, MAR:28
Refusal to administer epidural anesthesia leads to $200,000 CA settlement, FEB *Legal Review & Commentary*:1
Traction during birth causes partial paralysis, FEB *Legal Review & Commentary*:2
VBAC risk results in strict criteria or total ban, MAR:28

Patient handoff
JCAHO issues alert on meds at hand-off, MAR:35
SBAR checklist can cut risk at patient handoff, SEP:102
SBAR checklist outlines what to say at handoff, SEP:104
Seems simple, but culture change can be difficult, SEP:104

Patient safety (Also see *Drug errors, Medical errors, Obstetrics claims,* and *Patient safety goals)*
Avoid risk from obese with specific policies, JUN:65
CDC issues updated TB guidelines, APR *Patient Safety Alert*:2
Design becoming new focus for patient safety, JUL:76
Guidelines call for special care with bariatrics, JUN:67
Health care disparities narrow for many, APR *Patient Safety Alert*:2
Health care workers may imperil patients by snubbing influenza vaccinations; JAN *Patient Safety Alert*:1
Hospital reports critical results within one hour, OCT *Patient Safety Alert*:1
Hospitals are limiting pre-term inductions, OCT:109
Injuries and claims drop sharply at HCA, MAR:28
Massachusetts considering patients-per-nurse limits, JUL *Patient Safety Alert*:1
Many hospitals not close to IOM goals, MAR:34
More hospitals including patient safety in design, JUL:78
Nurses OK'd to begin rolling C-sections, MAR:29
Perinatal safety improved with focus on high-risk factors, MAR:25
Premium credits encourage hospitals to act, MAR:28
Rooms designed to reduce falls, standardize all gear, JUL:77
Safety briefings held before any incision made, MAY:58
Study: Quality, patient safety improving at modest pace, APR *Patient Safety Alert*:1
Tools to stop wandering may not be effective, SEP:107
VBAC risk results in strict criteria or total ban, MAR:28

Patient safety goals
Condition H phone line provides last chance to prevent serious errors, FEB:13
Death of young girl prompts Condition H program, FEB:17
Doctors often ignore 'black box' warnings, JAN:11
JCAHO issues alert on meds at hand-off, MAR:35
JCAHO releases new goals, requires flu vaccine, AUG:95
Many hospitals not close to IOM goals, MAR:34
Response teams always on call for Condition H, FEB:16
Partnering with patients, family, can improve safety, JAN:7
Patient safety rounds help problem reporting, JAN:7
Program reduces central line infections by 50%, APR:46
Wrong-site surgery rare, major injuries even more so, JUN:71

Pediatrics
Failure to report abuse leads to settlement, OCT *Legal Review & Commentary*:3
Injuries and claims drop sharply at HCA, MAR:28
Nurses OK'd to begin rolling on C-sections, MAR:29
Overdose of aminophylline leads to $456,000 verdict, AUG *Legal Review & Commentary*:3
Perinatal safety improved with focus on high-risk factors, MAR:25
Preemie deaths prompt special heparin caution, NOV:130
Premium credits encourage hospitals to act, MAR:28
VBAC risk results in strict criteria or total ban, MAR:28

Physician referral
Can be hard to prove intent after the fact, JUL:75
Tenet settlement should chill risk managers, JUL:73
Tenet statement outlines how referrals went astray, JUL:76

Public image
Document diligently, send patients with needed items, JUN:63
'Patient dumping' charges in Los Angeles draw attention, JUN:61
Plaintiffs may push cases alleging EMTALA violations, JUN:65

Reprocessing single-use devices
Reprocessing disposables more accepted but still some risks, DEC:133
Risk not always on reprocessor, DEC:135

Residency programs
New research shows big risk with residency programs, DEC:139

Root-cause analysis
Logic tree can get to real cause of systemic error, APR:43
Root-cause analysis might be shallow-cause, APR:41

Salary survey results
Data management called key to the future, NOV *HRM* Salary Survey Suppl:1

Security
Feds realizing risk from theft in health care, NOV:126
ID theft in health care emerging as major risk, NOV:124
Fingerprint scanners help improve record security, MAY:58
Know steps to prevent and respond to allegations, MAR:32
Patients can misread gestures, think sexual misconduct, MAR:31
Potential liability severe for allowing identity theft, NOV:127
Sexual misconduct requires firm stance, MAR:30
6 steps from calm to violent behavior, FEB:23
Steps for preventing identify theft in health care, NOV:127
Stolen laptops and poor security can lead to ID theft, NOV:127
To manage aggressive behavior, give staff right skills, FEB:21
Warning signs of sexual boundary violations, MAR:31

Sentinel events (Also see *Wrong-site surgery)*
Condition H phone line provides last chance to prevent serious errors, FEB:13
Death of young girl prompts Condition H program, FEB:17
Response teams always on call for Condition H, FEB:16

Sexual misconduct
Know steps to prevent and respond to allegations, MAR:32
Patients can misread gestures, think sexual misconduct, MAR:31
Sexual misconduct requires firm stance, MAR:30
Warning signs of sexual boundary violations, MAR:31

Staff and physician management (Also see *Flu season and vaccination* and *Sexual misconduct)*
3 types of misbehavior determine when to punish, FEB:18
Defining reckless behavior hard with just culture, JAN:3
Doctors more likely to tell when patient knows of error, OCT:113
Health care workers may imperil patients by snubbing influenza vaccinations; JAN *Patient Safety Alert*:1
Hospital shows just culture can work, MAR:33
How you can encourage doctors to disclose errors, OCT:115
'Just culture' model called better, JAN:1
Level of harm not factor when deciding to punish, FEB:17
Physicians still resist full disclosure of errors, OCT:112
Recruit staff from all over to keep you informed, FEB:19
Risk management hero awards prompt staff, FEB:20
Use variety of ways to educate staff on issues, FEB:20

Wrong-site surgery
Wrong-site surgery rare, major injuries even more so, JUN:71
